

Re-elect Ken Weismantel to the Planning Board

I have lived at 145 Ash Street for 36 years. Why should you reelect Ken Weismantel to the Planning Board?

Four reasons:

- Community Service and Experience
- Transparency
- Vision and Leadership
- Engineering background

My community service includes a long list of elected and appointed positions. I am completing 10 years on the Planning Board and for the last six years I was chairman.

The Planning Board is very transparent under my leadership. All of our meetings are televised, public is invited to provide input, we post all documents on line, and our minutes are detailed.

My vision for Hopkinton is expressed in the Master Plan that was recently updated under my leadership. We included Vision Statements and an Implementation Plan in the Master Plan for the first time.

I am a problem solver with an engineering background.

My goals for the future:

- Implement the new Master Plan
- Attract new businesses to lower taxes
- Ensure Legacy Farms Development fulfills their commitments to the Town
- Revitalize Downtown
- Encourage Open Space and Recreation Land
- Improve traffic corridors and sidewalks

I would like the opportunity to continue to work on these. I ask for your vote.
